Wilderness First Aid (WFA) is the assessment of and treatment given to an ill or injured person in a remote environment where definitive care of a physician and/or rapid transport is not readily available. In this WFA class, course participants learn how to assess, treat, and, when possible, prevent medical and traumatic emergencies within the scope of their training. CPR will also be covered in the course.

Subjects Covered in Course:

- Patient Assessments
- Chest Injuries
- Shock
- Head & Spine Inquires
- Bone & Joint Inquires
- Wound & Wound Infections
- Allergies & Anaphylaxis
- Wilderness First Scenarios
- Much More
